2. BASIS OF FUNDAMENTAL ACCOUNTING REGULATION

2.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements. The consolidated financial statements have been prepared under the historical cost convention, except for investments in associates and business combinations as presented in Note 3.2.

The accompanying consolidated financial statements are not intended to present the consolidated financial position and consolidated results of operations and consolidated cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices utilised in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

2.2 Fiscal year

The Corporation's fiscal year is from 1 January to 31 December.

2.3 Currency

The consolidated financial statements are measured and presented in the Vietnamese Dong ("VND"), which is the Company's accounting currency.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The herein is the constituted part and should be read simultaneously with the consolidated financial statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The following are the key accounting policies applied by the Corporation in preparing the consolidated financial statements:

3.1 Critical accounting estimates

The preparation of consolidated financial statements in conformity with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements requires the Chairman to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the financial year.

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Corporation and that are believed to be reasonable under the circumstances by the Chairman.

3.2 Basis of consolidation

Subsidiaries

Subsidiaries are all entities over which the Corporation has the power to govern the financial and operating policies in order to gain future benefits from their activities generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Corporation controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Corporation. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Corporation. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest.

The excess of the cost of acquisition over the fair value of the Corporation's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiaries acquired, the difference is recognised directly in the consolidated income statement.

Inter-company transactions, balances and unrealised gains and losses on transactions between Corporation companies are eliminated.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Corporation.

The financial statements of the subsidiaries are prepared for the same accounting period of the Group for the consolidation purpose. If there are differences in end dates, the gap must not exceed 3 months. Adjustments are made to reflect impacts of significant transactions and events occurring between the end dates of the subsidiaries' accounting period and that of the Group's. The length of the reporting period and differences in reporting date must be consistent between years.

Non-controlling transactions and interests

The Corporation applies a policy of treating transactions with non-controlling interests ("NCI") as transactions with parties external to the Corporation.

NCI are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The herein is the constituted part and should be read simultaneously with the consolidated financial statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.2 Basis of consolidation (continued)

Associates

Associates are all entities over which the Corporation has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Corporation's investment in associates includes goodwill identified on acquisition, net of any accumulated impairment loss.

The Corporation's share of its associates' post-acquisition profits or losses is recognised in the consolidated income statement. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Corporation's share of losses in an associate equal or exceeds its interest in the associate, the Corporation does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Corporation.

Unrealised gains and losses on transactions between the Corporation and its associates are eliminated to the extent of the Corporation's interest in the associates.

3.3 Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Corporation's share of the net identifiable assets of the acquired subsidiary or associate at the date of acquisition. Goodwill on acquisitions of subsidiaries is recognised as an asset and is amortised on a straight-line basis over its estimated period of benefit but not exceed 10 years.

Goodwill on acquisitions of investments in associates is included in the carrying amount of the investments at the date of acquisition. The Corporation does not amortise this goodwill.

On disposal of the investments in subsidiaries or associates, the attributable amount of unamortised goodwill is included in the determination of the profit or loss on the disposal.

Goodwill is tested annually for impairment and carried at cost less accumulated amortisation less accumulated impairment losses. If there is evidence that the impairment during the year is higher than the annual goodwill charge, the Corporation records the impairment immediately in the fiscal year.

3.4 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at banks and other short-term investments with an original maturity of three months or less.

3.5 Receivables

Receivables represent trade receivables from customers arising from sales of goods and rendering of services or non-trade receivables from others and are stated at cost. Provision for doubtful debts is made for each outstanding amount based on overdue days in payment according to the initial payment commitment (exclusive of the payment rescheduling between parties), or based on the estimated loss that may arise. Bad debts are written off when identified.

Receivables are classified into short-term and long-term receivables on the consolidated balance sheet based on the remaining period from the consolidated balance sheet date to the maturity date.

PETROVIETNAM GENERAL SERVICES JOINT STOCK COMPANY

Floor 6, PetroVietnam Tower, No. 1 - 5 Le Duan St., Sai Gon Ward,
Ho Chi Minh City, SR Vietnam

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The herein is the constituted part and should be read simultaneously with the consolidated financial statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**3.6 Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the weighted average method and includes all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the normal course of business, less the estimated costs of completion and selling expenses.

The Corporation applies the perpetual system for inventories.

Provision is made, where necessary, for obsolete, slow-moving and defective inventory items. The difference between the provision of this year and the provision of the previous year is recognised as an increase or decrease of cost of goods sold in the year.

3.7 Fixed assets**Tangible and intangible fixed assets**

Fixed assets are stated at historical cost less accumulated depreciation or amortisation. Historical cost includes any expenditure that is directly attributable to the acquisition of the fixed assets bringing them to suitable conditions for their intended use. Expenditure which is incurred subsequently and has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets, can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the consolidated income statement when incurred in the year.

Depreciation and amortisation

Fixed assets are depreciated and amortised using the straight-line method to write off the depreciable amount of the fixed assets over their estimated useful lives. Depreciable amount equals to the historical cost of fixed assets recorded in the consolidated financial statements minus (-) the estimated disposal value of such assets. The principal annual rates of each asset class are as follows:

	Tỷ lệ (%)
Nhà cửa, vật kiến trúc	2 – 20
Máy móc, thiết bị	5 – 50
Phương tiện vận tải	10 – 17
Dụng cụ quản lý	20 – 33
Quyền sử dụng đất	2 – 3
Phần mềm máy tính	33
Tài sản cố định khác	25 - 33

Land use rights comprise of land use rights granted by the State for which land use fees are collected, land use rights acquired in a legitimate transfer, and prepaid land use rights obtained under land rental contracts which are effective before the effective date of land law 2003 (ie. 1 July 2004) and which land use right certificates are granted.

Definite land use rights are stated at costs less accumulated amortisation. Costs of land use rights consists of its purchased prices and any directly attributable costs in obtaining the land use rights. Land use rights are amortised using the straight-line basis over the terms of the land use right certificates.

Indefinite land use rights are stated at costs and not amortised.

Disposals

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount of the fixed assets and are recognised as income or expense in the consolidated income statement.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The herein is the constituted part and should be read simultaneously with the consolidated financial statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.8 Operating leases

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the consolidated income statement on a straight-line basis over the term of the lease.

3.9 Construction in progress

Construction in progress represents the cost of assets in the course of installation or construction for production, rental or administrative purposes, or for purposes not yet determined, which are recorded at cost and are comprised of such necessary costs to newly construct, to repair and maintain, to upgrade, to renew, or to equip the projects with technologies as construction costs, costs of tools and equipments, compensation and resettlement costs, project management expenditure, construction consulting expenditure, and capitalised borrowing costs for qualifying assets in accordance with the Corporation's accounting policy. Depreciation of these assets, on the same basis as other fixed assets, commences when the assets are ready for their intended use.

3.10 Investment properties

The historical cost of an investment property represents the amount of cash or cash equivalents paid or the fair value of other consideration given to acquire the investment property at the time of its acquisition or completion of construction. Expenditure incurred subsequently which has resulted in an increase in the expected future economic benefits from the use of investment properties can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the consolidated income statement when incurred in the year.

Depreciation and amortisation

Investment properties held for lease are depreciated on straight-line basis to write off the depreciable amount of the assets over their estimated useful lives. Depreciable amount equals to the historical cost of assets recorded in the consolidated financial statements minus (-) the estimated disposal value of such assets. The principal annual rates of each asset class are as follows:

Plant and buildings	3% - 33%
---------------------	----------

Disposals

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount of the fixed assets and are recognised as income or expense in the consolidated income statement.

3.11 Prepaid expenses

Prepaid expenses include short-term and long-term prepayments on the consolidated balance sheet. Short-term prepaid expenses reflect prepayments for services; or tools that do not meet the recognition criteria for fixed assets; ... for a period not exceeding 12 months or a business cycle from the date of prepayments. Long-term prepaid expenses reflect prepayments for services; or tools that do not meet the recognition criteria for fixed assets; ... for a period exceeding 12 months or more than one business cycle from the date of prepayments. Prepaid expenses are recorded at historical cost and allocated on a straight-line basis over their estimated useful lives.

Prepayments for land rental contracts which are not recorded as intangible assets as described in Note 3.7 are recorded as prepaid expenses and allocated using the straight-line basis over the prepaid lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The herein is the constituted part and should be read simultaneously with the consolidated financial statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.12 Investments

Trading securities

Trading securities are securities which are held for trading to earn profits.

Trading securities are initially recorded at historical cost including cost of acquisition and any expenditure that is directly attributable to the acquisition. Subsequently, the Chairman reviews all outstanding investments to determine the amount of provision to recognise at the year end. The provision for diminution in value of trading securities is made when their cost is higher than their fair value. Changes in the provision balance during the fiscal year are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

The Corporation recognises trading securities when it has ownership of the assets, specifically as follows: listed securities are recorded at the time of orders matching.

Profit or loss from liquidation or disposal of trading securities is recognised in the consolidated income statement. The costs of trading securities disposed are determined by using the moving weighted average method.

Investments held-to-maturity

Investments held-to-maturity are investments which the Corporation has a positive intention and ability to hold until maturity. Investments held-to-maturity include term deposits and other held-to-maturity investments. Those investments are initially accounted for at cost. Subsequently, the Chairman reviews all outstanding investments to determine the amount of provision to recognise at the year end.

Provision for diminution in value of investments held-to-maturity is made when there is evidence that the investment is uncollectible in whole or in part. Changes in the provision balance during the fiscal year are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

Investments held to maturity are classified into short-term and long-term investments held to maturity on the consolidated balance sheet based on remaining period from the consolidated balance sheet date to the maturity date.

Investments in associates and joint ventures

Investments in associates and joint ventures are accounted for using the equity method when preparing the consolidated financial statements (Note 3.2)

Investments in other entities

Investments in other entities are investments in equity instruments of other entities without controlling rights or co-controlling rights, or without significant influence over the investee. These investments are accounted for initially at cost. Subsequently, the Chairman reviews all outstanding investments to determine the amount of provision to recognise at the year end.

Provision for investments in other entities is made when there is a diminution in value of the investments at the year end. Provision for investments in other entities is made when there is a diminution in value of the investments at the year end. It is calculated based on market value if market value can be determined reliably. If market value cannot be determined reliably, the provision for investments in other entities is calculated based on the loss of investees.

Changes in the provision balance during the fiscal year are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The herein is the constituted part and should be read simultaneously with the consolidated financial statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.13 Capital and reserves

Owners' capital

Owners' capital is recorded according to the actual amounts contributed at the par value of the share.

Share premium

Share premium is the difference between the par value and the issue price of shares and the difference between the repurchase price and re-issuing price of treasury shares.

Owners' other capital

Owners' other capital reflects other capital of owners at the reporting date.

Treasury shares

Treasury shares brought before the effective date of the Securities Law (ie. 1 January 2021) are shares issued by the Company and bought back by itself, but these are not cancelled and may be re-issued subsequently in accordance with the Law on Securities.

Treasury shares brought after 1 January 2021 will be cancelled and adjusted to reduce equity.

Undistributed earnings

Undistributed earnings record the Corporation's consolidated results after CIT at the reporting date.

3.14 Appropriation of profit

The Corporation's dividends are recognised as a liability in the consolidated financial statements in the year in which the dividends are approved by the General Meeting of shareholders.

Net profit after CIT could be distributed to shareholders after approval at a General Meeting of shareholders, and after appropriation to other funds in accordance with the Parent Company's charter and Vietnamese regulations.

The Corporation's funds are as below:

Investment and development fund

The investment and development fund is appropriated from net profit after CIT of the Corporation and approved by shareholders in the Annual General Meeting of Shareholders. This fund is used for expanding and developing the business of the Corporation.

Bonus and welfare fund

The bonus and welfare fund is appropriated from the Corporation's net profit after CIT and subject to shareholders' approval in the Annual General Meeting of Shareholders. This fund is presented as a liability on the consolidated balance sheet. This fund is used for rewarding and encouraging, enhancing the physical and mental well-being of the employees.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The herein is the constituted part and should be read simultaneously with the consolidated financial statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.15 Revenue recognition

Revenue from sales of goods

Revenue from sale of goods is recognised in the consolidated income statement when all five (5) following conditions are satisfied:

- The Corporation has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Corporation retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Corporation; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods.

Revenue is recognised in accordance with the “substance over form” principle and allocated to each sale obligation. In cases where the Corporation gives promotional goods to customers associated with their purchases, the Corporation allocates the total considerations received between goods sold and promotional goods. The cost of promotional goods is recognised as cost of goods sold in the consolidated income statement.

Revenue from rendering of services

Revenue from rendering of services is recognised in the consolidated income statement when the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided. Revenue from rendering of services is only recognised when all four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Corporation;
- The percentage of completion of the transaction at the consolidated balance sheet date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Revenue from rendering of operating lease services

Revenue from rendering of operating lease services is recognised in the consolidated income statement on a straight-line basis over the lease term.

Dividends income

Income from dividends is recognised on the basis of the actual time and interest rates for each period when both conditions are simultaneously satisfied:

- It is probable that economic benefits will be generated; and
- Income can be measured reliably.

Income from dividend paid/profit shared

Income from dividend paid/profit shared is recognised when the Corporation has established the receiving right from investees.

Allocation of gas cylinders deposits

Gas cylinders deposits received from customers are allocated into the consolidated income statement on a straight-line basis over 10 years, which is in line with allocation of the long-term prepayments of gas cylinders (Note 3.11), following Circular No. 118/2010/TT-BTC dated 10 August 2010 issued by the Ministry of Finance – Guidance on the financial and taxation regimes to entities trading liquefied petroleum gas.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

The herein is the constituted part and should be read simultaneously with the consolidated financial statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.16 Sales deductions

Sales deductions include trade discounts, sales returns and allowances. Sales deductions incurred in the same year of the related revenue from sales of products, goods and rendering of services are recorded as deduction of revenue of that year.

Sales deductions for sales of the products, goods or sales of services which are sold in the year, but are incurred after the consolidated balance sheet date but before the issuance of the consolidated financial statements are recorded as deduction of revenue of the year.

3.17 Cost of goods sold and services rendered

Cost of goods sold and services rendered are the cost of finished goods, merchandise, materials sold or services rendered during the year, and recorded on the basis of matching with revenue and on a prudent basis.

3.18 Financial expenses

Financial expenses are expenses incurred in the year for financial activities including expenses or losses relating to financial investment activities; expenses of borrowing; losses from trading of securities; provision for diminution in value of investments; losses from foreign exchange differences and payment discounts.

3.19 Selling expenses

Selling expenses represent expenses that are incurred in the process of selling goods, and rendering of services.

3.20 General and administration expenses

General and administration expenses represent expenses that are incurred for administrative purposes.

3.21 Current and deferred income tax

Income tax includes all income tax which is based on taxable profits. Income tax expense comprises current tax expense and deferred tax expense.

Current income tax is the amount of income taxes payable or recoverable in respect of the current year taxable profits at the current year tax rates. Current and deferred income tax should be recognised as an income or an expense and included in the profit or loss of the year, except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different year, directly in equity.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of occurrence affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the consolidated balance sheet date.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.
